

ANAND DUDI

Working at Developer Bazaar Technologies

PROFILE

Over 8 years of IT experience which includes 2 years of Extensive experience as a React JS Developer. Proficient with React. Used problem-solving aptitude to enhance application performance.

EXPERIENCE

- Used understanding of React fundamentals to promote better component lifecycle practices, increasing turnaround speed by 23% with 100% deadline adherence.
- Communicated with other teams and senior management to adapt to changing industry standards.
- Introduced wider use of isomorphic React.js for web applications, decreasing load times by roughly 35%.
- Followed documentation to always remain up-to-speed on what needs to be updated in response to new release versions.

EDUCATION

Oriental Institute Of Science & Technology, Bhopal

Bachelor Of Engineering

Senior Secondary Education(STD-12 TH)

From S.V.M. School(Madhya Pradesh)

SKILLS

- React Framework
- Three.js Framework
- Django Framework
- Django-Rest-Framework
- QT Framework
- PostgreSQL Database
- Linux
- Tailwind Framework
- Vectary

PROGRAMMING LANGUAGES

- Python
- Javascript
- HTML
- CSS
- Core Java

PROJECTS

1. SimulationWebApp

Project Link: <https://dudisimulationapp.netlify.app/>

Technology: Three.js, Ammo.js, Tween.js, Vectary

My Role: Full Stack Developer

Project Description: It is real world simulation web application. In which I have implemented a hypothesis regarding the nature of existence, called the simulation theory using THREE.JS and AMMO.JS to simulate physics.TWEEN.JS for smooth animation. Used VECTARY for 3D objects which is a light equivalent of blender.

2. ChatWebApp

Project Link: <https://dudichatapp.herokuapp.com/>

Technology: React, Django, Django-Rest-Framework, ORM, PostgreSQL

My Role: Full Stack Developer

Project Description: It is basically a chat web application. I have developed chat app using React as frontend and Django as backend, seamlessly integrated with Api's leveraging Django-Rest-Framework for intact Authentication,ORM technique etc at backend. Deployed on heroku with postgresQL database.

3. Control

Project Link: <https://photos.app.goo.gl/AWgd3NkjtCfVLVAS8>

Technology: API Integration(OpenWeatherMap, Youtube), PYQT5

My Role: Full Stack Developer

Project Description: It is basically a cross platform desktop application. To control any os functionality and utilization of some api's such as openweathermap and youtube. inbuilt browser as well. Developed using PYQT5 which is python binding of gui toolkit Qt.

4. CoinExchange

Project Link: <https://myreactjsexample.netlify.app/>

Technology: Reactjs, Tailwind CSS.

My Role: Full Stack Developer

Project Description: I have built this with apis in Reactjs and tailwindcss. Stablecoin are cryptocurrencies without the volatility. They share a lot of the same powers as ETH but their value is steady, more like a traditional currency. So you have access to stable money that you can use on Ethereum.
